TRIPLE LUMEN PICC CATHETERS

FEATURES & BENEFITS:

- The all NEW Triple Lumen PICC is the first of its kind. The triple lumen PICC is indicated to provide antibiotic therapies, pain management drugs, and total parenteral nutrition. Achieved through two 19 gauge lumens and one larger 18 gauge lumen, this catheter is surprisingly small at 5Fr. providing the patient with less invasive options for therapy.

- Tapered Tip: The Triple Lumen PICC provides a super soft tapered tip, which is less traumatic to the vessel, minimizing vessel erosion, hemothorax, and cardiac tamponade.

- Multiple Lengths: Due to its super soft tapered tip, the Triple Lumen PICC comes in four lengths to accommodate a wide range of patients. The lengths are 40cm, 45cm, 50cm, and 55cm.

- Superior Tray Components: Included with all Jet Medical SA PICC catheters are components of the highest quality. Each tray will include the industry's needle of choice, a platinum tipped guidewire, and a tearaway introducer sheath.

**Nursing Content**
1. Triple Lumen PICC Catheter with Pre-loaded Stylet
2. #11 Blade retracting Scalpel
3. Positive Pressure Caps
4. Chlorhexidine
5. .018" x 40cm Nitinol Platinum Tip Wire
6. Adhesive Back Drape
7. Ear Loop Type Face Mask
8. Steri-Strips/PKG.3
9. 5cm PTFE Micro-Stick™ Introducer Set
10. 10ml Pre-Filled Saline Syringe
11. Adhesive Wound Dressing
12. Tweezer Clamp
13. 2.4" x 2.4" CSR Wraps
14. Adhesive Securement Device
15. 4½" Metal Scissors
16. Latex-Free Tourniquet
17. 21Ga. Needle with Echotip
18. 2" x 2" Gauze Sponge
19. 5cc Disposable Syringe
20. #11 Blade Mini Scalpel
21. 2½" Measuring Tape
22. 10cc Disposable Slip Syringe
23. 4½" Metal Scissors
24. 24" Paper Tape Measure
25. 4" x 4" Gauze Sponge
